Current Responsibility

Lucian Franzky is a consultant in the Amsterdam office of Milliman. As such, he is involved in projects in the field of property and casualty insurance, as well as risk/capital management in the Netherlands and Belgium.

Professional Work Experience

Lucian joined Milliman in 2019, and has four years of experience in the financial industry. Before joining Milliman, he worked as a business analyst at a consultancy focusing on start-ups and business acquisitions and at the University of Groningen teaching mathematics, statistics, and modelling.

At Milliman, Lucian has, among other things, been involved in the modelling and pricing of a complex P&C portfolio, the implementation of an automated reporting engine for IFRS17, and the development of a balance sheet management model.

Education

- Master of Science, Econometrics (cum laude), University of Groningen, The Netherlands
- Bachelor of Science, Econometrics, Operations Research and Actuarial Studies, University of Groningen, The Netherlands
